### EDUCATION

**RUKMAIN DEVI JAIPURIA PUBLIC SCHOOL**, New Delhi-10<sup>th</sup>

May-2015

**MAHAVIR SENIOR MODEL SCHOOL**, New Delhi — 12<sup>th</sup>

May-2017

**PDM UNIVERSITY**, Bahadurgarh— B. Tech

June-2021

### WORK EXPERIENCE

#### Weaddo – Full Stack Developer

Sep-2022

- I am currently working on different projects like UNO application, Prabhatkhabr, Trender (an-Ecommerce Website), etc.
- On the Above project I have built new Feature's like OTP send, Preview Feature, Election Result page, etc. and fixed previous bug and issue.
- Technologies used -: Node Js, Mongoddb , express, React JS, JQuery, EJS, Restful API's, HTML, CSS, Git and GitLab.

#### Neudesic Technologies PVT LTD an IBM Company, -Associate Consultant

Nov-2021-Aug-2022

- Worked with an agile team in a sprint manner with daily scrum, worked on mini tasks in the production using React.
- Worked on React native internal project to create an E-commerce application for android.
- Technologies used -: GitHub, GitLab, RESTful API's, React, TypeScript, React-native, Redux, CSS, etc.

#### EDYODA – SOFTWARE DEVELOPER TRAINEE

6 months of MERN stack developer training.

Technologies learned: -HTML5 CSS3, JAVASCRIPT (ES6, ES7), REACT (V.17.0 with hooks), Redux (v.4.0), Material UI, Bootstrap (v.4).

### PROJECTS

#### TODO APP Using React

This app lets users add, delete, and modify tasks in a persistent list. Technologies use: -React, Bootstrap, local Storage.

#### SHOPLANE WEBSITE USING HTML, CSS & JS (VANILLA JS)

This project is based on e-commerce website which named as shop lane website. It can be done by using HTML, CSS, and JS (VANILLA JS). HTML used to give content to a body and CSS used for styling and JS is used to add functionality and dynamic effects to that content

GitHub, GitLab.

#### Mobile app

**development:** React Native.

### AWARDS

**Hacker rank:** Five Star in problem solving via Python

**Kaggle competition:** Secured 160 rank out of 4000 participants

**College Technical round competition:** Secured 3rd position in competition

### CERTIFICATES

Complete Python Bootcamp

Python Complete Hacker rank

Web Dev Fundamentals (HTML, CSS, JavaScript)

React JS

### LANGUAGES

Hindi-Native

English

### **TRENDER**

Tender is an E-Commerce Website which is used to purchase products for clothing purposes. In this project Firstly I Fixed all bugs and issues and create CRUD operations and create COD Payment method. I have created all these things for admin dashboard and front-end development. Technologies used are jQuery, HTML, CSS, Node JS, MongoDB, Express.

### **UNO**

UNO is used to create Invite or meetings to connect people for different purposes like for their Business Work or for personal work. I have worked on Login, Signup with OTP feature and to create new invite and update invite time using draggable functionality and hit API's. Technologies used are jQuery, EJS, HTML, CSS.

### **PRABHATKHABAR**

Prabhatkhabar is used to get information about what's going on in our nation or worldwide. All the latest news on sports or about health or studies etc. I have created an education Page and create Election Page, election that recently passed of Gujrat and himachal Pradesh in this It will show seats, won, loss, parties with map which gives the information of election results. Technologies I have used are React JS, HTML, CSS.
